

Ways of getting involved

We like to give residents a big say on the services we deliver and in the management of their homes. We encourage resident involvement in lots of different ways, from meetings through to phone, postal or on line surveys. You can become involved as little or as much as you like and we always appreciate the time you give us. Arrangements can be made for transport and childminding if you attend meetings.

Our Involvement Web

About 700 of our tenants are already part of our Involvement Web and we hope more residents would like to register their interest. Several times a year we send out surveys to our members and the feedback is collated and discussed by our South West Tenants' Panel members before a report is produced for the Operations Committee.

Board Members

We have a Management Board made up of unpaid volunteers who are responsible for making decisions about the way Tor Homes is run. The Board is made up of local authority trustees, independent trustees and tenants, all equally represented. All tenants are eligible to stand for election to the Board.

For details on how to get involved, please click on the links to our information leaflets at the bottom of this page.
